SITOP PSU8200/3AC/48VDC/20A

SITOP PSU8200 48 V/20 A stabilized power supply input: 400-500 V 3 AC output: 48 V DC/20 A *Ex approval no longer available*

Input	
type of the power supply network	3-phase AC
supply voltage at AC	
minimum rated value	400 V
maximum rated value	500 V
• initial value	320 V
• full-scale value	575 V
design of input wide range input	Yes
operating condition of the mains buffering	at Vin = 400 V
buffering time for rated value of the output current in the event of power failure minimum	10 ms
operating condition of the mains buffering	at Vin = 400 V
line frequency	
• 1 rated value	50 Hz
• 2 rated value	60 Hz
line frequency	45 65 Hz
input current	
 at rated input voltage 400 V 	2 A
 at rated input voltage 500 V 	1.7 A
current limitation of inrush current at 25 °C maximum	13 A
l2t value maximum	2.24 A ² ·s
fuse protection type	
• in the feeder	Required: 3-pole connected miniature circuit breaker 10 16 A characteristic C or circuit breaker 3RV2011-1DA10 (setting 3 A) or 3RV2711-1DD10 (UL 489)
Output	
voltage curve at output	Controlled, isolated DC voltage
output voltage at DC rated value	48 V
output voltage	
 at output 1 at DC rated value 	48 V
relative overall tolerance of the voltage	3 %
relative control precision of the output voltage	
 on slow fluctuation of input voltage 	0.1 %
 on slow fluctuation of ohm loading 	0.2 %
residual ripple	
• maximum	100 mV
voltage peak	
• maximum	480 mV
adjustable output voltage	46 56 V
product function output voltage adjustable	Yes
type of output voltage setting	via potentiometer; max. 960 W
display version for normal operation	Green LED for 48 V OK

Subject to change without notice © Copyright Siemens

type of signal at output	Relay contact (NO contact, rating 60 V DC/ 0.3 A) for 48 V OK
behavior of the output voltage when switching on	minimal overshoot (< 3 %)
response delay maximum	0.1 s
voltage increase time of the output voltage	
• maximum	100 ms
output current	
rated value	20 A
rated range	0 20 A; +60 +70 °C: Derating 4%/K
supplied active power typical	960 W
short-term overload current	
 at short-circuit during operation typical 	60 A
duration of overloading capability for excess current	
 at short-circuit during operation 	25 ms
constant overload current	
 on short-circuiting during the start-up typical 	24 A
product feature	
 bridging of equipment 	Yes; switchable characteristic
number of parallel-switched equipment resources for increasing the power	2
Efficiency	
efficiency in percent	94 %
power loss [W]	
 at rated output voltage for rated value of the output current typical 	58 W
 during no-load operation maximum 	4 W
Closed-loop control	
relative control precision of the output voltage with rapid	1 %
fluctuation of the input voltage by +/- 15% typical	
relative control precision of the output voltage load step of resistive load 50/100/50 % typical	3 %
setting time	
• maximum	10 ms
Protection and monitoring	
	< 57.8 V
Protection and monitoring	< 57.8 V 22 A
Protection and monitoring design of the overvoltage protection	
Protection and monitoring design of the overvoltage protection • typical	22 A Yes
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof	22 A
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection	22 A Yes
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value • typical	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown 26 A
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value • typical overcurrent overload capability in normal operation display version for overload and short circuit	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown 26 A overload capability 150 % lout rated up to 5 s/min
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value • typical overcurrent overload capability in normal operation display version for overload and short circuit Safety	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown 26 A overload capability 150 % lout rated up to 5 s/min LED yellow for "overload", LED red for "latching shutdown"
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value • typical overcurrent overload capability in normal operation display version for overload and short circuit Safety galvanic isolation between input and output	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown 26 A overload capability 150 % lout rated up to 5 s/min LED yellow for "overload", LED red for "latching shutdown" Yes
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value • typical overcurrent overload capability in normal operation display version for overload and short circuit Safety galvanic isolation between input and output galvanic isolation	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown 26 A overload capability 150 % lout rated up to 5 s/min LED yellow for "overload", LED red for "latching shutdown" Yes Safety extra-low output voltage Uout acc. to EN 60950-1 and EN 50178
Protection and monitoring design of the overvoltage protection typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value typical overcurrent overload capability in normal operation display version for overload and short circuit safety galvanic isolation between input and output galvanic isolation operating resource protection class	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown 26 A overload capability 150 % lout rated up to 5 s/min LED yellow for "overload", LED red for "latching shutdown" Yes
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value • typical overcurrent overload capability in normal operation display version for overload and short circuit Safety galvanic isolation between input and output galvanic isolation operating resource protection class leakage current	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown 26 A overload capability 150 % lout rated up to 5 s/min LED yellow for "overload", LED red for "latching shutdown" Yes Safety extra-low output voltage Uout acc. to EN 60950-1 and EN 50178 Class I
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value • typical overcurrent overload capability in normal operation display version for overload and short circuit Safety galvanic isolation between input and output galvanic isolation operating resource protection class leakage current • maximum	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown 26 A overload capability 150 % lout rated up to 5 s/min LED yellow for "overload", LED red for "latching shutdown" Yes Safety extra-low output voltage Uout acc. to EN 60950-1 and EN 50178 Class I 1 mA
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value • typical overcurrent overload capability in normal operation display version for overload and short circuit Safety galvanic isolation between input and output galvanic isolation operating resource protection class leakage current • maximum • typical	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown 26 A overload capability 150 % lout rated up to 5 s/min LED yellow for "overload", LED red for "latching shutdown" Yes Safety extra-low output voltage Uout acc. to EN 60950-1 and EN 50178 Class I 1 mA 0.6 mA
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value • typical overcurrent overload capability in normal operation display version for overload and short circuit Safety galvanic isolation between input and output galvanic isolation operating resource protection class leakage current • maximum • typical	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown 26 A overload capability 150 % lout rated up to 5 s/min LED yellow for "overload", LED red for "latching shutdown" Yes Safety extra-low output voltage Uout acc. to EN 60950-1 and EN 50178 Class I 1 mA
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value • typical overcurrent overload capability in normal operation display version for overload and short circuit Safety galvanic isolation between input and output galvanic isolation operating resource protection class leakage current • maximum • typical protection class IP Approvals	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown 26 A overload capability 150 % lout rated up to 5 s/min LED yellow for "overload", LED red for "latching shutdown" Yes Safety extra-low output voltage Uout acc. to EN 60950-1 and EN 50178 Class I 1 mA 0.6 mA
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value • typical overcurrent overload capability in normal operation display version for overload and short circuit Safety galvanic isolation between input and output galvanic isolation operating resource protection class leakage current • maximum • typical protection class IP Approvals certificate of suitability	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown 26 A overload capability 150 % lout rated up to 5 s/min LED yellow for "overload", LED red for "latching shutdown" Yes Safety extra-low output voltage Uout acc. to EN 60950-1 and EN 50178 Class I 1 mA 0.6 mA IP20
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value • typical overcurrent overload capability in normal operation display version for overload and short circuit Safety galvanic isolation between input and output galvanic isolation operating resource protection class leakage current • maximum • typical protection class IP Approvals certificate of suitability	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown 26 A overload capability 150 % lout rated up to 5 s/min LED yellow for "overload", LED red for "latching shutdown" Yes Safety extra-low output voltage Uout acc. to EN 60950-1 and EN 50178 Class I 1 mA 0.6 mA IP20
Protection and monitoring design of the overvoltage protection • typical property of the output short-circuit proof design of short-circuit protection enduring short circuit current RMS value • typical overcurrent overload capability in normal operation display version for overload and short circuit Safety galvanic isolation between input and output galvanic isolation operating resource protection class leakage current • maximum • typical protection class IP Approvals certificate of suitability • UL approval	22 A Yes Alternatively, constant current characteristic approx. 22 A or latching shutdown 26 A overload capability 150 % lout rated up to 5 s/min LED yellow for "overload", LED red for "latching shutdown" Yes Safety extra-low output voltage Uout acc. to EN 60950-1 and EN 50178 Class I 1 mA 0.6 mA IP20 Yes Yes; cULus-Listed (UL 508, CSA C22.2 No. 107.1), File E197259; cCSAus (CSA C22.2 No. 60950-1, UL 60950-1)

• IECEx	No
ATEX	
	No
ULhazloc approval	No
• cCSAus, Class 1, Division 2	No
• FM registration	No
certificate of suitability shipbuilding approval	Yes
Marine classification association	
 American Bureau of Shipping Europe Ltd. (ABS) 	No
 French marine classification society (BV) 	No
Lloyds Register of Shipping (LRS)	No
EMC	
standard	
 for emitted interference 	EN 55022 Class B
 for mains harmonics limitation 	EN 61000-3-2
 for interference immunity 	EN 61000-6-2
environmental conditions	
ambient temperature	
 during operation 	-25 +70 °C; With natural convection
 during transport 	-40 +85 °C
during storage	-40 +85 °C
environmental category according to IEC 60721	Climate class 3K3, 5 95% no condensation
Mechanics	
type of electrical connection	screw-type terminals
• at input	L1, L2, L3, PE: 1 screw terminal each for 0.5 4 mm ² single-core/finely stranded
• at output	+: 2 screw terminals each for 0.5 16 mm²; -: 3 screw terminals each for 0.5 16 mm²
for auxiliary contacts	13, 14 (alarm signal), 15, 16 (Remote): 1 screw terminal each for 0.05 \dots 2.5 $\rm mm^2$
width of the enclosure	135 mm
height of the enclosure	145 mm
depth of the enclosure	150 mm
required spacing	
• top	40 mm
bottom	40 mm
• left	0 mm
● right	0 mm
net weight	3.3 kg
product feature of the enclosure housing can be lined up	Yes
fastening method	Snaps onto DIN rail EN 60715 35x15
mechanical accessories	Device identification label 20 mm × 7 mm, TI-grey 3RT2900-1SB20
MTBF at 40 °C	520 782 h
other information	Specifications at rated input voltage and ambient temperature +25 $^\circ\text{C}$ (unless otherwise specified)
